

RC35a Easy Add pat. pend.

Keyless Entry Relay

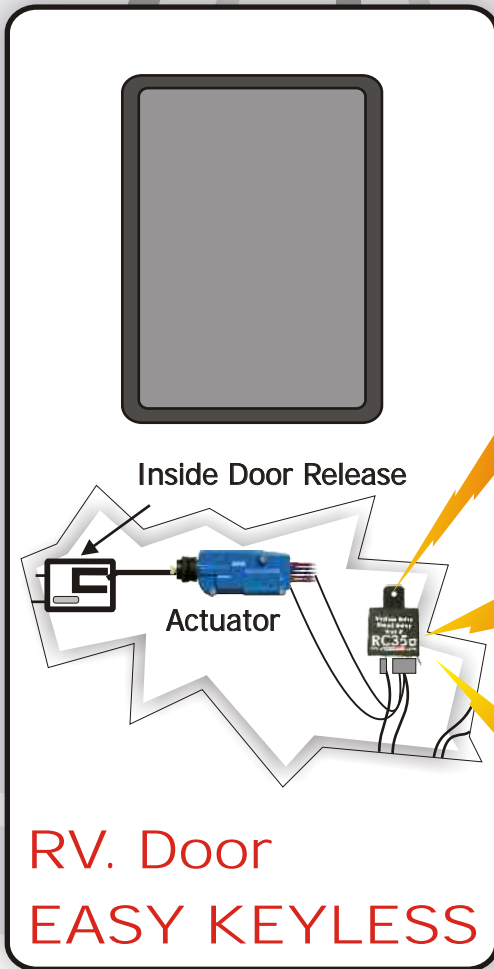

This is your 1 to 6 door power locking solution. Flex Switch communicates with this new keyless entry controller making wiring a thing of the past.

pat. pend.

3.5"

2.25"

- Communication with aftermarket and factory power locking systems.
- On board relays alone directly power all actuators.
- Key fobs can be easily programmed and added.
- Hardwired switches can be added.
- Timed output, positive/negative.
- Six door capable, slave relay pack increases power locking even more.
- Weather Resistant allows more flexibility in installation.
- Combination of 10 fobs and Flex Switches can be added to memory.

Keyless Entry power door lock easy add. All inclusive door mounted system.
